— Crash Course

- Paper II, taught live
- October 1 onwards, ten weeks
- Lectures, tests and mentorship with Nancy Ma'am

53

LIVE LECTURES

10

WEEKS OF CLASS

2,500+

DISTINCT QUESTIONS

Oct 1

CLASSES BEGIN

DR. KOMAL SAHAI

FOUNDER, ECONITI

Ph.D., ISI Delhi. Guest lectures through the cycle.

NANCY MA'AM

COURSE INSTRUCTOR

Six UGC NET-JRF qualifications. Teaches all 53 lectures.

A course, a test package, and someone who stays with it.

WHAT THE COURSE INCLUDES

- Live lectures by Nancy Ma'am, October to December
- Recorded access for 6 months
- Guest lectures by Dr. Komal Sahai (Ph.D, ISI Delhi; Founder, EcoNiti)
- Full test package with detailed answers
- Doubt sessions all through the cycle
- One-to-one mentorship by Nancy Ma'am

INSIDE THE TEST PACKAGE

- Baseline test, then 20 subject-wise tests
- 120 topic-wise tests, weighted like the PYQs
- Full PYQ coverage for the last five cycles
- 5 Paper II, 2 Paper I and 2 full-length mocks
- Detailed explanations of all questions

WHO TEACHES YOU

ABOUT DR. KOMAL SAHAI

- Ph.D. in Economics, ISI, Delhi
- M.A. Economics, Delhi School of Economics
- Taught at O.P. Jindal Global University
- Founded EcoNiti in 2024

ABOUT NANCY MA'AM

- M.A. Economics, Banaras Hindu University
- Five years of teaching for competitive exams
- Six UGC NET-JRF qualifications of her own
- Led EcoNiti's 2025 UGC NET PYQ sessions

Ten units, in the order they earn you marks.

October 1 to December 14. Ninety minutes a lecture, five days a week. Highest-yield units are taught first, every unit closes with a revision and PYQ session, and lectures 15, 28, 40 and 50 stay free as buffers for backlog, a missed class or a sectional test.

October

LECTURES 1–22

Microeconomics

L1–7

Consumer behaviour and Hicks–Slutsky · production and costs · market structures · game theory · general equilibrium and welfare · factor pricing

Macroeconomics

L8–14

Classical versus Keynesian output · consumption and investment · multiplier and accelerator · money demand and supply · IS–LM · inflation and Phillips curve

Statistics and Econometrics

L16–22

Probability and CLT · dispersion, correlation and index numbers · sampling and inference · hypothesis testing · OLS, BLUE and Gauss–Markov · time series

November

LECTURES 23–43

Mathematical Economics

L23–27

Differential calculus · matrices and vector spaces · constrained optimisation and Lagrange · input–output and linear programming · difference equations

Growth and Development

L29–33

Smith, Ricardo, Marx and Schumpeter · Rostow, balanced and unbalanced growth · Harrod–Domar and Solow · endogenous growth · HDI, PQLI, SDGs and poverty

Indian Economy

L34–39

Structural transformation · agriculture, industry and services · foreign trade and trade policy · infrastructure and PPP · Centre–State finance, FRBM and poverty

International Economics

L41–43

Comparative advantage and Heckscher–Ohlin · balance of payments and exchange rates · terms of trade, tariffs, dumping, WTO, IMF and the World Bank

December

LECTURES 44–53

Public Economics

L44–46

Market failure, public goods and externalities · taxation, progressivity and incidence · public expenditure, debt and fiscal policy

Money and Banking

L47–48

Money supply, the central bank and credit creation · monetary–policy instruments, NBFIs and capital–market regulation

Environment and Demography

L49

Environment as a public good, the Coase theorem and cost–benefit analysis · population theories, life tables and migration

Final consolidation

L51–53

A PYQ marathon across the core units, a full-length mock discussion with error-log repair, then an ultra-revision of formulas, diagrams and exam traps.

Pick a plan that suits you.

OFF

EARLY BIRD, LIVE NOW

Every price above already includes the discount. It holds until **September 25, 2026.**

Before you pay.

Does the course cover Paper I?

The lectures teach Paper II, Economics. The test package includes two Paper I tests and two full-length mocks.

Can I take only the test series?

Yes. The test series and the PYQ discussions are each available on their own, with their own payment link.

Are the lectures recorded?

Classes are live, and the recording stays on your portal for six months. Missing a class does not mean missing the lecture.

What happens after I pay?

You get portal access and the class schedule the same day, and the batch group link before October 1.

How long is each lecture?

Ninety minutes, five days a week, from October 1 to December 14. Self-practice after each class is 20–25 PYQs.

What if I fall behind?

The plan keeps buffer lectures for backlog, difficult concepts and sectional tests, and doubt sessions run all through the cycle.

Is mentorship part of every plan?

One-to-one mentorship by Nancy Ma'am comes with the Course + Test series + Mentorship plan.

Where can I read more?

The full course page is at econiti.org/courses/ugc-net-jrf-economics.

STILL UNSURE

Not sure which plan fits you?

If you want a word before you pay, or need guidance on where to start, we're happy to help — see the next page for fee flexibility and ways to reach us.

Flexibility, and how to reach us.

FEE FLEXIBILITY

No-cost EMI

Every plan can be paid via easy, no-cost EMI — 3, 6 or 12 months, on credit cards.

Additional discounts

Reserved and EWS category students can contact us for extra, need-based support on the fee.

This applies specifically to reserved/EWS category students — fees are otherwise fixed and non-negotiable.

GET IN TOUCH

For guidance on choosing a plan, help with a payment issue, or to apply for the additional discount — reach us directly.
